

INTEGRATED MANAGEMENT SYSTEM -IMS

Gartner, Inc. estimates a **40%** document-related cost reduction with document management systems.

A Study shows ~ **28%** reduction in cost when using IT applications in Calibration and Maintenance management.

INTEGRATED MANAGEMENT SYSTEM

An integrated management system (IMS) combines all related components of a business into one system for easier management and operations. Quality, Environmental, and Safety management systems are often combined and managed as an IMS.

QUALITY

Continuously improve the quality of the services and products, increasing the satisfaction of internal and external customers.

SAFETY

Reduce and/or eliminate the risks to the people and to the assets, as well as prevent the damages to the health of the workers.

ENVIRONMENT

Reduce the contamination generated during rendering of the services.
